**DEPARTMENT OF CORPORATIONS
HEALTH PLAN DIVISION**

Sacramento, California

**NOTICE**

Section 1397.5(b) of the Knox-Keene Health Care Service Plan Act of 1975 ("Act") requires that this report include the following disclaimer:

THIS INFORMATION IS PROVIDED FOR STATISTICAL PURPOSES ONLY. THE COMMISSIONER OF CORPORATIONS HAS NEITHER INVESTIGATED NOR DETERMINED WHETHER THE COMPLAINTS COMPILED WITHIN THIS SUMMARY ARE REASONABLE OR VALID.

Section 1368.04(a) of the Act states:

The commissioner shall, as appropriate, investigate and take enforcement action against plans regarding complaints by enrollees and subscribers. The commissioner shall periodically evaluate complaints to determine if any audit, investigative or enforcement actions should be undertaken by the department.

Health Care Service Plan Complaint Data

1999 Requests for Assistance

1. What is this report?

This report details the number and types of complaints or grievances (also known as "Requests for Assistance" or "RFAs") received by the Department during the 1999 calendar year.

2. What is a "Request for Assistance"?

A Request for Assistance is the Department's term for a grievance or complaint against a health care service plan which has been received by the Department.

3. Why was this report created?

The Department licenses and regulates health care service plans under the Knox-Keene Health Care Service Plan Act of 1975 ("Act" -- California Health and Safety Code Section 1340 *et seq.*). Section 1397.5(a) of the Act requires that this report be filed annually as a public record.

4. What is a "Health Care Service Plan"?

Health care service plans are commonly referred to as "HMOs" or "health maintenance organizations." Health care service plans either arrange for the provision of health services to enrollees, or pay for or reimburse the cost of those services in return for a prepaid or periodic charge. In contrast, an insurance company indemnifies and reimburses an insured for health care costs that are incurred. The insurance company does not provide or contract for those services to be provided to the insured. Health care service plans in California offer some or all of the following services: medical, dental, vision, psychological, chiropractic, and prescription/pharmacy.

5. What is a "Referral to Plan"?

Section 1368(b)(1)(A) of the Act requires in most cases that enrollees with a grievance first participate in the health plan's internal grievance process for at least 30 days before seeking assistance from the Department. Enrollees are not required to participate in a health plan's grievance process before requesting Department assistance if the grievance involves an imminent and serious threat to the health of the enrollee.

If an enrollee seeks the Department's assistance with a non-emergency grievance without first accessing the health plan's internal grievance process as described above, the Department will forward the grievance to the health plan for direct handling. For reporting purposes, the HPD classifies such cases as "Referrals to Plan," not "Requests for Assistance." In this report, "Referrals to Plan" and "Requests for Assistance" are separate and distinct categories.

6. Does this report contain plan-specific information?

This report does contain plan-specific information. The summary report lists all health plans which were licensed on or before December 31, 1999; the number of complaints which the Department received against each health plan; and the four broad categories under which these complaints are classified by the Department (Accessibility, Benefits/Coverage, Claims, and Quality of Care).

Additionally, the report contains a section with an individual page for each health plan that was licensed during the 1999 calendar year.

7. Is this report a report card?

This report is not a report card on health plan performance. This report provides specific information about the number and types of complaints received by the Department involving health care service plans during the 1999 calendar year.

8. Should I select a health plan based on this information?

The data in this report reflects one discrete measure of health plan performance. The Department recommends that no individual make a health plan selection based on any single measure of performance. This report is but one source of information regarding health plans. There are many organizations that prepare and distribute health plan performance evaluations. An individual should learn as much as possible about the health plans he or she is considering before making a final selection.

9. How can I use the data in this report to determine how well my health plan is doing?

As previously mentioned, the data in this report should not be used in isolation to judge plan performance. Rather, the report should be used as part of the total mix of information available about health plans.

10. What are "Issue Categories"?

The Department recognizes and records 32 RFA issue types. On the summary report, the 32 issue types are condensed into four broad issue categories: 1) Accessibility, 2) Benefits/Coverage, 3) Claims, and 4) Quality of Care. For more information on the RFA issue types, please see the attached description list.

11. Why is the number of issues for some health plans higher than the number of RFAs received?

An RFA received by the Department may contain more than one issue. Therefore, the total number of issues for a particular health plan may be larger than the number of RFAs received by the HPD for the same plan.

12. Why do some health plans have two names listed?

The Department has listed health plans according to their official licensed name. In instances where a plan is known by more than one name (such as a DBA) the licensed name is shown first with the other name in parentheses.

13. How was health plan enrollment determined?

The health plan enrollment figures used are an average of the quarterly enrollment data which health plans provide to the Department. *

* During the 1st Quarter 1999, an enrollment figure was inadvertently reported for CareAmerica Southern California. This health plan merged with Blue Shield of California in 1998 and should not have appeared on the 1st Quarter 1999 report.

As a result of the merger between the parent companies of HMO California and Universal Care, the two health plans combined enrollment information was reported to the Department starting with the third quarter of 1999. Enrollment is reported under Universal Care for the calendar year 1999.

14. Why do some health plans have no enrollment?

The typical reason why a health plan may have no enrollees is because the health plan may have been recently granted a Knox-Keene license.

The following health plans received Knox-Keene licenses in 1999:

<u>Plan</u>	<u>Date Licensed</u>
On Lok Senior Health Services	01/20/99
ProMed Health Care Administrators	04/07/99
Scripps Clinic Health Plan Services	04/07/99
Merk-Medco Managed Care of CA, Inc	7/23/99
Eye Care Plan of America-CA, Inc	12/30/99

15. Why would a health plan appear in last year's report and not appear in this report?

A health plan which appeared in last year's report but does not appear this year may have surrendered its Knox-Keene license.

The following health plans surrendered their Knox-Keene license in 1999 (unless otherwise listed):

<u>Plan</u>	<u>Date Surrendered</u>
Foundation Health Psychcare Services	01/99
San Joaquin Valley Dental Plan	03/99
Monarch Plan, Inc	04/99
Health Benefits, Inc.	05/99
California Pacific Medical Group dba Brown & Toland Medical Group	10/99
THIPA Management Consultants, Inc.	11/99
Preventive Dental Systems	12/99

16. What explains the large variations in the numbers of RFAs filed against various health plans?

A number of factors can influence the number of RFAs filed with respect to a particular health plan. These include, among others, the total number of enrollees in the health plan, the degree to which the health plan discloses to enrollees the right to file an RFA with the Department, the effectiveness of the health plan's internal grievance procedures, and the quality of the health plan's services.

In the report, the number of RFAs for each health plan is also presented as "RFAs per 10,000 Enrollees." This presentation allows for comparisons of health plans of significantly different enrollments.

Also in this report, the Department has included a third column representing an industry wide average of issues per 10,000 enrollees. This presentation allows for a comparison of individual Health Plans to the industry average.

REQUEST FOR ASSISTANCE ISSUE TYPE DESCRIPTIONS

Listed below are the 32 issue types the Department recognizes and records regarding Requests for Assistance ("RFAs"). Each issue type is followed by a brief definition/explanation. The issue types are grouped according to the four broad categories found in the annual Health Care Service Plan Complaint Data Report. For purposes of this list, the term "physician" includes other providers as well.

Section 1397.5(b) of the Knox-Keene Act requires the following disclaimer:

THIS INFORMATION IS PROVIDED FOR STATISTICAL PURPOSES ONLY. THE COMMISSIONER OF CORPORATIONS HAS NEITHER INVESTIGATED NOR DETERMINED WHETHER THE COMPLAINTS COMPILED WITHIN THIS SUMMARY ARE REASONABLE OR VALID.

Section 1368.04(a) of the Knox-Keene Act:

The commissioner shall, as appropriate, investigate and take enforcement action against plans regarding complaints by enrollees and subscribers. The commissioner shall periodically evaluate complaints to determine if any audit, investigative, or enforcement actions should be undertaken by the department.
